All Abilities Divisions

The USA IFK US International Kyokushin Championships is proud to offer an All Abilities (Adaptive Karate) competition category to our prestigious event. The division allows All Abilities students the chance to compete in abridged kata & kumite categories (see categories listed below). Students that will enter the All Abilities divisions must have their head coaches/instructors first contact Tournament Director, Shihan Sean Schenker, to ensure correct placement and clarity in competition. The All Abilities categories are great ways to give all students the chance to perform & compete, demonstrating their courage and growth, while honoring the individual needs of our All Abilities students.

Division	Description
Adaptive Kata with Senpai	Students will perform a solo Kata with assistance from a teacher.
Adaptive Kata solo	Students will perform a solo Kata independently
Adaptive Kumite	Students will compete against a teacher for a single match.

SEMI/FULL-CONTACT KUMITE GENERAL PROCEDURES

The tournament will create divisions based on the following categories. Based on participation, some categories may need to be adjusted. The Tournament Director and other competition organizers reserve the right to change/alter any age and/or divisions to accommodate the event.

All competitors must officially "weigh-in" with competition organizers prior to participating in their Kumite Division.

If a competitor fails to "weigh-in" at the listed weight to which they registered, they may be moved to an alternate division by decision of the Tournament director and competition organizers but are not guaranteed a spot to compete.

****Please check competitor's profile in Smoothcomp to ensure the information is accurate****

Competitors will be called to the ring through Smoothcomp for their division. If the competitor does not arrive at the designated time to their ring, their name or division will be called and the competitor will have one minute to arrive at their designated ring or risks disqualification from the competition. The competitor must arrive at their designated ring in full protective gear with one certified coach, or risk disqualification from the competition.

For Full Knockdown, in the case of "Hikiwake" (Draw) after the second round (first extension) the match may go to a "weight decision". In this case, if the registered weight of the competitors is greater than what is permitted (see kumite division chart), then the lighter fighter will be declared the winner. If there is not a significant weight difference between the competitors, the match will go into a final extension where a decision must be made by referees. In the finals of divisions, there will be no weight decision considered. It is expected that all competitors and coaches will follow the kumite rules/regulations as listed.

Any protest of decisions MUST be made within two minutes after the issue has occurred to the Tatami Manager, first as a verbal request, followed by a written report by completing the USA-IFK Protest Form if necessary. A protest raised after the tournament has closed may not be considered.
